IMMUNIZATION REQUIREMENTS		Reports of Titer
1	HEP B	Required Immunization for Hepatitis B Hepatitis B proof of positive titer that demonstrates immunity. *Hepatitis B surface antibody HBsAB documentation is required* If immunity is not seen: Complete: 3 series doses of Hepatitis B vaccine on a 0, 1, and 6-month schedule OR 2 series doses of Heplisav-B on 0 and 1-month schedule may be completed.
2	TDaP	T-dap vaccine within 10 years (and every 10 years)
3	MMR	MMR: Proof of positive titer that demonstrates immunity. If immunity is not seen, 2 series dose of MMR vaccine.
4	Varicella	Varicella: Proof of positive titer that demonstrates immunity. If immunity is not seen 2 series dose Varicella vaccine
5	TB	TB: Documentation of negative test: Either test below is acceptable. 1. T-Spot or Quantiferon bloodwork results. (Valid for 10 years unless affirmative answers on annual "TB" interview form, then testing may be repeated) 2. Tuberculin Skin Testing report. (Valid for 1 year)
6	Influenza Vaccine	During regular flu season (Oct-March). Declination is only allowed if there is documented allergy and is determined on a case by case basis by the clinical sites.
7	Meningococcal	1 dose; 1 dose MenACWY (formerly MCV4) required for all full-time students 21 years of age or younger. The dose of MenACWY vaccine must have been received on or after the student's 16 th birthday. Doses received at younger ages do not count towards this requirement. Students may decline MenACWY vaccine after they have read and signed the <u>MDPH Meningococcal Information and Waiver Form</u> provided by their institution. Meningococcal B vaccine is not required and does not meet this requirement.
8	Covid Vaccine	COVID vaccine is required for ALL clinical sites. Proof of updated (2023-2024) Covid-19 vaccination may be mandatory depending on clinical site.
